

SWARNA NISHMITHA

Bapatla, Andhra Pradesh — +91 7842682081
nishmitha.swarna@gmail.com — LinkedIn — GitHub

CAREER OBJECTIVE

Seeking an entry-level opportunity where I can apply my technical knowledge, actively contribute to team-work, and support software development projects while gaining hands-on industry experience.

EDUCATION

Bapatla Women’s Engineering College, Bapatla B.Tech – Computer Science and Engineering CGPA: 8.5	2023 – 2027
Sri Harshini Junior College, Ongole Intermediate (MPC) Percentage: 97%	2021 – 2023
ZPHS Chirukurapadu SSC Percentage: 99%	2020 – 2021

TECHNICAL SKILLS

Programming Languages: Python, C, JavaScript
Web Technologies: HTML, CSS, React.js, Node.js, Express.js
Databases: MongoDB, Firebase
Tools: Git, VS Code, Postman
Concepts: Machine Learning, REST APIs, JWT Authentication, MVC Architecture
Soft Skills: Communication, Team Collaboration, Leadership, Problem Solving, Time Management

INTERNSHIP EXPERIENCE

Generative AI Trainee – Internshala	2025
- Completed a 6-week intensive training program on Generative AI and Python. - Developed AI-powered projects including an AI Recipe Generator and Telegram Chatbot. - Worked with AI image generation techniques and prompt engineering concepts.	
Cyber Security Intern – Conquer E-Learning	2025
- Completed a 2-month internship focused on cybersecurity fundamentals. - Learned network security, threat analysis, and secure system practices. - Strengthened analytical and problem-solving skills through practical assignments.	

PROJECTS

Language Translation System
- Developed a language translation application using Natural Language Processing and Machine Learning. - Implemented language detection, text preprocessing, and multilingual translation. - Improved translation accuracy and efficiency across multiple languages. - Designed a user-friendly interface for seamless multilingual communication.
Heart Stroke Prediction System
- Developed a machine learning model to predict heart stroke risk using healthcare datasets. - Applied data preprocessing, feature engineering, and model optimization techniques. - Implemented Logistic Regression and Random Forest algorithms for prediction. - Improved prediction accuracy for early detection and preventive healthcare support.

CERTIFICATIONS

- NPTEL – Introduction to Internet of Things
- Generative AI Training – Internshala
- Cyber Security Internship – Conquer E-Learning
